

# Adult Outpatient Recovery Services

Life's most challenging situations shouldn't be faced alone. We're here to help.

## About Our Adult Outpatient Services:

---

We offer an array of outpatient programs for adults and families that include individual, group and family therapy to address problems associated with substance abuse, depression, anxiety, anger management, domestic violence, grief and loss, and other mental health issues. Our staff includes a broad range of professionals: licensed addiction counselors, clinical social workers, marriage and family therapists, psychiatrists and other treatment specialists.

## Our approach:

---

- The clinic's Adult Outpatient Service continuum employs evidence-based practices, including cognitive behavioral and motivational enhancement approaches and strategies for addressing specific needs
- Specialized services include intensive outpatient care for individuals with substance abuse and co-occurring disorders and the Lifeline program for women with substance abuse challenges, and individuals involved with the courts

We serve adults and families throughout Central Connecticut.
