Our Addiction Center of Excellence is available to you and your family where and when you need it. We provide many levels of care, including programs that provide support in your home, to meet your needs.

We draw the core principles of our Centers of Excellence from the standards established by the National Council on Behavioral Health to promote excellence in behavioral health care and treatment:

- cutting-edge clinical innovation through evidence-based practices;
- world-class customer care;
- easy access to services;
- culturally, gender-, and age-responsive care;
- excellent outcomes; and
- high customer satisfaction.

YOUR FIRST STEP

- Adult Outpatient Recovery Services
- Medication-Assisted Treatment
- Substance Abuse Care Facilitation
- Older Adults Substance Abuse Recovery Program
- Latino Outreach Program

PREVENTION RESOURCES & INFORMATION
Connecticut Clearinghouse, a library and resource center, provides information and training on behavioral health and substance misuse disorders, prevention and health promotion, treatment, recovery and wellness.

FOR ADOLESCENTS
Intensive In-home Substance Abuse Treatment Services
Wheeler provides innovative in-home behavioral health and substance misuse treatment for youth.

FOR ADULTS
Adult Outpatient Services
Wheeler offers individual, group and family therapy for the treatment of substance misuse and behavioral health issues.

Medication-Assisted Treatment
Wheeler offers extended-release injectable Naltrexone, combined with counseling, for the treatment of opioid and alcohol abuse. This allows patients to stay abstinent longer, experience fewer cravings and decreases their chances of relapse. Other medication-assisted treatments, like Buprenorphine (Suboxone®, Zubsolv® or Bunavail®) are available as well.

Narcan prescriptions, which help to reverse opioid overdoses, can be provided for Wheeler behavioral health consumers and their family members.

Substance Abuse Care Facilitation
Care Facilitators coordinate behavioral and medical health care for adults with multiple complex needs.

Older Adult Substance Abuse Recovery Program
Counseling is available for adults 60 years and older to address the unique issues associated with aging, including substance misuse, depression, isolation, and grief and loss.

Latino Outreach Program
Wheeler provides outreach, referrals and case management to ensure Latino individuals have access to substance abuse and behavioral health services.
