Therapeutic Foster Care Program

MAKING A DIFFERENCE IN THE LIVES OF CHILDREN.

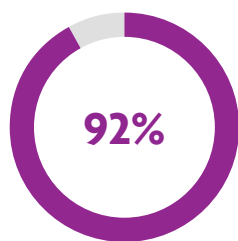

On any given day in Connecticut, there are thousands of children in foster care and more who need safe, loving homes. Wheeler Clinic's Therapeutic Foster Care program provides 24-hour-a-day supported family homes to children and adolescents, primarily ages 6 through 17, needing a therapeutic level of foster care. The program also serves younger children as part of a sibling group and works with children over 18 years of age.

The program offers foster families training and ongoing support to help them provide a structured and nurturing environment to children who have been removed from their homes due to abuse and/or neglect, and who may be experiencing symptoms related to trauma, loss and other behavioral health concerns.

TRAINING AND SUPPORT FOR FOSTER FAMILIES

- Foster families are trained by program staff around the needs of children in care prior to child placement
- Careful attention is given to matching children with families that will best be able to meet their unique needs
- The program provides comprehensive support service to foster families, including:
 - 24/7 on-call response by foster care staff clinicians
 - Respite care
 - Weekly visits
 - Ongoing training and parenting education to help foster parents understand and meet the unique needs of the child in their care

OUR OUTCOMES

of children were maintained in their TFC placement each year, since FY 2013

WE SERVE FAMILIES

Throughout Central Connecticut, including Greater New Britain, Greater Hartford, Greater Waterbury and Torrington
