

Medication-Assisted Treatment

COMPREHENSIVE TREATMENT FOR OPIOID AND ALCOHOL ADDICTION

As part of comprehensive treatment for opioid and alcohol addiction, Wheeler offers medication-assisted treatment for adults at four locations in central Connecticut. An initial clinical evaluation is available without an appointment.

NALTREXONE (VIVITROL®)

Wheeler offers extended-release injectable Naltrexone, combined with counseling, for the treatment of opioid and alcohol abuse. This allows patients to stay abstinent longer, experience fewer cravings and decreases their chances of relapse. Non-habit-forming, it works by blocking the effects of opioids and the pleasurable feelings produced by drinking. Eligibility requirements include 7-10 days substance abstinence.

BUPRENORPHINE (SUBOXONE®, ZUBSOLV® OR BUNAVAIL®)

Buprenorphine, most commonly prescribed as Suboxone®, is available by appointment at the Wheeler Health & Wellness Center, 999 Asylum Avenue, Hartford. Combined with counseling, it helps people reduce or quit their use of opioids.

Buprenorphine is available at:

- 75 North Mountain Road, New Britain
- Wheeler Health & Wellness Center, 10 North Main St., Bristol

NALOXONE (NARCAN®)

Naloxone is a medication which saves lives by reversing the effects of an opioid overdose. Behavioral health consumers, friends and family members can receive a prescription for Naloxone as early as the initial evaluation. The medication is administered at the time of the overdose.

Naltrexone and Naloxone are available at:

- 999 Asylum Avenue, Hartford
- 75 North Mountain Road, New Britain
- 91 Northwest Drive, Plainville
- Wheeler Health & Wellness Center, 10 North Main St., Bristol

For information or to make an appointment, call our Navigation Center at 888.793.3500.
